## FOR THOSE IN FRANCE

(By ROBERT J. C. STEAD)  
He heard the call of country clear;  
He weighed no circumstance;  
Afar from those who held him dear  
He lies tonight—in France.

The tears of pride were in her eye;  
All love was in her glance;  
She sent him forth, if need, to die,  
To die for you—in France.

His bables lip their prayer to Him  
Who errs by no mischance;  
While in the trenches, bleak and grim,  
Their father fights in France.

For lips that pray, and eyes that weep,  
And hearts that feel the lance,  
Dig down, dig down, dig down, deep,  
And pay—for those in France,

## No Election for School Trustees

Nominations for mayor, councillors and school trustees took place at the Blairmore town office on Monday, with the following result:

For Mayor—W. A. Beebe, D. A. Sinclair.

For Council—Onesime LePage, William McVey, Philip M. Christopher, W. J. Bartlett, Raoul Green.

For School Trustees—Joseph E. Gillis, Samuel Mason, W. J. Bartlett, returned by acclamation.

An election will take place on Monday next to fill the offices of mayor and three councillors, and considerable electioneering is already being done.

## The 192nd Battalion

Our readers will no doubt be interested in knowing of the disposition of the 192nd battalion, which left Calgary on October 24th. From letters received we gather that the battalion arrived in England as a unit on November 11th, and that all officers maintained their rank until arrived in England. On arrival the battalion was paraded, and all but Adjutant Lancaster and Lieut.-Col. Lyon were transferred to the 9th Reserve Battalion, which is used for the purpose of furnishing reinforcements for the different divisions at the front.

On learning that the 192nd was made up chiefly of experienced miners, the war office at London ordered Major Coulthard to report immediately and secure all the miners possible for the training company, which he did on the 19th November, securing about 150 men.

Six days' leave was granted officers and men before getting down to work properly, so that fifty percent of the battalion left for London and different points throughout the Isles. On their return all are to take special courses of study and training before being sent to France. A correspondent says that judging from the disposition of a battalion which came over a month or so before the 192nd, it is expected that two months will see all the boys of the 192nd across the channel. All battalions arriving in England are immediately broken up and transferred to reserve battalions.

The staff of the 192nd will be busy for several months winding up affairs. In the meantime, Lieut. Col. Lyon, with other colonels, is being sent over to tour France and the front to study conditions there.

The officers and men were complimented upon their smart appearance, and their ability to execute drill movements. Generally speaking, they made good in every respect—not too bad for the Old Crow. The camping grounds are fine, and all live in comfortable huts. Air-craft fly from Schorncliffe to France in 124 minutes, and to the front in thirty minutes, so that the boys are not far from the field of operations. On clear, calm days the great guns can be heard pounding away at

The boys find it very interesting to look over the old towns close by camp, with their 16 foot streets and sidewalks wide enough for two to walk abreast, and in many places only room for one. Churches 1,000 years old, many of them

## Permanent Cure of Piles Certified By Minister

**Sixteen Years Ago This Man Was Cured by Dr. Chase's Ointment—Had Suffered Keenly for Twelve Years.**

You might almost say that there is only one actual cure for piles, and that is the permanent cure. And this conclusion is corroborated by reports from persons who had suffered from piles for many years and success. Some have even been operated on, only to have the old trouble return, and to obtain no real cure by means of this ointment.

Why not avoid waste of time, money and energy, and get rid of piles with operations by using Dr. Chase's Ointment once?

"that is all very well for fishing piles, but my trouble is from bleeding piles. Well, here's a good idea. You who are reading this for about twelve years, and suffered most keenly. For sixteen years I have suffered from piles, and I have, and naturally considers the cure permanent."

Mr. O. B. Peters, Salmon Arm, British Columbia, "I was troubled with piles for twelve years, and suffered everything but death, and was so bad I could scarcely walk."

## Conserving Livestock

High Prices for Feed Should Not Deterilize of Animals

That there is need of the "Production and Trade" campaign is hardly denied by anyone. Canada has taken stock of his country's resources. High prices of our natural products, however, but do not always have a bad effect if care is not taken by producers when selling. A large number of the prevailing market quotations, clear off all his stock, he is not enriching himself nor the consumer, but rather costing both himself, and the Dominion government. Many of the farmers are selling off their cattle, and the market price is easily cleared up. These go straight to the butcher, and are meat products. The meat products are the best animals their value would be undermined.

Statistics which have been collected show that Canada had 2,600,000 milk cows in 1915, and has 630,000 less in 1916. In 1915 we had 2,038,000 sheep in 1915 we have 1,965,000. In 1915 we had 1,200,000 swine, in 1916 we have 2,814,000 today.

These are serious decreases and should be a cause for alarm. If Western Canadians are to enjoy all the prosperity they are entitled to, they must be competitive in the live stock market.

Of course, we will be commanding high prices for live stock not increasing commensurately in price, the farmer may be tempted to let their cattle, sheep and swine go. Experience will show that this will be poor business.

TIME TO Kill and Bury It

Canada could not afford the discontinuance of the parsonage system, and is just waiting to support the church by giving convincing proof that they are still needed. The country has given them, through its government, every soft seat at satisfying salaries in their parsonages.

WORRY, DESPONDENCY.

## Russian Doctors on Drink

Absence of Alcohol in the System Causes Rapid Recovery

Zemski doctors, the only medical practitioners amongst the Russian people, have done a great service in the suppression of drink has wonderfully improved the health and morals of the people. They have been instrumental to anyone only slightly acquainted with Zemski hospitals. The rapid and complete recovery of the wounded and the wounds by soldiers is also in a great measure due to the entire absence of alcohol in the system.

The vodka had eaten it. His way is the most virulent of all poisons. With two glasses of vodka (2-1/2 gallons) or several vedros of vodka the peasant, both physically and mentally, becomes a complete idiot. Valuable leases of land have been surrendered to the village council, and the weaker head continually yields to the temptation of drinking.

Nowhere in the world do people drink so freely as the peasants, especially the peasantry, as in Russia. Its absence has brought about about the most remarkable changes in the kind. The money is spent on necessities or put into reproductive expenditures. The cost of living is reduced, prices of primary commodities, after due allowances is made for the specific cost of transportation, is in a great measure due to the people's ability to keep his eggs, his poultry, and his pigs as quickly as possible—that is, immediately after hatching. The cost of transportation is the greatest expense.

Women Munition Workers

Only Ten Minutes in a Year Lost by One Girl Worker

Referring to the habits of women munition workers, a well-known writer says: "The truth is that punctuality is a truism. There are exceptions, of course, but as a rule the women workers are not punctual. They are bound to be closed against some women running up breathlessly to pins in the first place."

Here is an example I know of one girl who is employed on highly dangerous work in a munition factory. She is a good worker, but she is not punctual. She begins her day at 10 a.m. and continues to work until 6 p.m. Then she goes home to have dinner. During that whole year she has lost ten minutes every morning by being late, and ten minutes every evening by getting home late.

For a solid year she has done that. Up at 5.30 or 6 every morning she is late, and when she gets to her factory at 7. Then she begins a twelve-hour shift.

During that whole year she has lost ten minutes every morning by being late, and ten minutes every evening by getting home late.

She has lost ten minutes every morning by being late, and ten minutes every evening by getting home late.

## The Allies United to the End

The British Government, by the mouth of Mr. Lloyd George, has declared publicly that no intervention in that sense will be listened to.

"Peace now, or at any time before the complete elimination of the German menace, is impossible. This war, and for that reason, we are united to fight it to the end. Germany initiated this war, and for that reason, we are united to fight it to the end. The world demands that Germany be made to pay for her sins."

**The Manly Man**

"The world has room for the manly man, with the spirit of manly cheer; The world delights in the man who smiles when his eyes keep back the tears; If the world goes wrong, if the world goes wrong, can take his place and stand With his face to the fight and his eyes to the light, and till with a willing heart; The world is here, it is the country he needs, To make him manly, to make him strong, With a heart that beats to the thumping tread of the ill-tempered legs of truth; The world is here, and it waits for him, and leaps to hear the ring Of fate how he strikes and the wheel he turns, and the hammer he dares to swing; It likes the forward look in his face, the pulse of his noble heart."

And the manly heart of the true son of the sweet, his manhood true! Hurrah for the manly man who comes with sunlight on his face, And the strength to do the will to live and the courage to find his place! Of fate how he strikes and the wheel he turns, and the hammer he dares to swing; It likes the forward look in his face, the pulse of his noble heart."

**Brilliant Comet**

**Coming in View**

A gigantic comet, officially known as "Comet B" and sometimes referred to as "Wolf's" comet, is approaching the sun at a rate of 1,531,240 miles a day, according to the latest noted astronomers, and by Dec. 11 its brilliant rays may be visible in the morning sky.

The comet, it is said, outclasses all others seen in centuries in size and brilliancy. It will pass the sun on the evening of the sun June 17, 1917, and probably will remain visible for about three months.

On Dec. 18 it will be closest to the sun at which time it will be less than 62,000 miles away. It should be visible to the naked eye during next summer's months.

An Impossible Feat

A cool story is being told of a reply given by a student to a question set in an examination paper.

"If twenty men were to leap a field in eight hours," ran the question, "how long would it take fifteen men to leap the same field?"

The student thought long and carefully before setting down the answer, and when he had in his pencil wrote what the examiner read:

"The field has already been run by the twenty men, could not be run by the twenty men, could not be run by the fifteen."

Can You Beat It?

A cold snap is as bad as the fishing season for making lures. A West Fennel man says that a neighbor threw a cupful of water at a cat one cold morning. The cat leaped into a chunk of ice in the air, bit the cat on the head and broke his skull.

Then he sent a telegram to the police station to say that he had been bitten by the dog and when she tried to blow it out in the morning found the flame froze hard.

She broke it off and threw it into the woodshed where later it thawed out and set the snow on fire.

The dog was not scared but winds up with the story of a Edinburgh doctor, who, just before he started out on a drive, took half a dozen good sized drinks of fine old bourbon. It was cold outside, but the doctor had a warm coat and a chunky cigar. He put the chunks into a pall when he got home, and thawed them out, and had a quart of pretty fair whiskey,

## Cowley Happenings

Mrs O. Hettis has departed for a visit with immediate relatives in England.

Mr. Gottsch will start for Victoria shortly, where he intends spending the winter.

BORN—To Mr. and Mrs. R. Swift, a daughter. Mr. Swift is overseas now.

W. Mitchell, the new manager, has taken up his responsibilities at the Union Bank.

C. Buchanan has gone to Utah on a visit; it is rumored that he may not come back alone.

Mrs. Miller has gone to Spokane, the state of her health making it necessary to consult a specialist there.

Mrs. James Bennett has taken her little daughter, Laurette, to St. Louis Mission, to consult a specialist in regard to her health.

Mr. Jamieson has resigned his position as manager of the Union bank here. We understand that he intends joining the army. At present he is a Fannie visitor.

It will interest the farmers and stockmen to know that the stock-yard scales in the Cowley yards are now in good working order, and have been inspected and passed.

While in town the other day, Mrs. J. Rhodes took sick suddenly and was taken to the Memorial hospital at Pincher Creek. We understand she had an attack of appendicitis.

Mrs. George Dwyer and children left on the first of December for a visit with their parents in Missouri. She and Mrs. Bennett had the good fortune of travelling together as far as Kansas City.

Mr. Perl has received word from his son Alex., who was attending medical school in Ireland, stating that while playing a game of football he had the misfortune of falling and sustaining a serious knee wound.

Mrs. Bound has received word from her son Alex., who has been ill of wounds in hospital in France for some months, saying that one of his legs had to be amputated to ensure recovery.

The Christmas entertainment of the Cowley school will be held on the 21st of December in the Cowley hall. The little folk grows more noticeable as the time draws near for the appearance of "Old Saint Nick."

While going down the Middle Fork grade in his auto, M. L. Jordan had an exciting experience. The car turned over on him, and it is believed it would have proved fatal to him had not some passers-by come to his aid immediately.

On Monday evening, December 4th, the annual meeting of the village ratepayers was held, for the purpose of nominating candidates for the council for the coming year. The meeting was small, and from the lack of interest shown it would appear that the acts of the old council had met with the approval of the electorate. Had all of the old council decided to accept re-election, there would have been no change but Mr. Littleton decided he had had sufficient municipal honors and was replaced by another white hope in the person of Mr. McMillan. Mr. McMillan was in the same position in past years. There being only three nominations received, the candidates, Messrs. W. E. Tustain, H. C. Morrison and H. D. McMillan were declared elected by acclamation. The financial statement shows the village to be in excellent condition, in comparison with other Alberta municipalities; having no debt burdened.

The government of Quebec province has decided to abolish the open bar, but will permit the continued sale of liquors under a system not yet decided upon. The exodus of the bars may come by next May, but if legislation has not by them achieved this result, then it may be expected by May, 1918.

## Local and General

As a result of a patriotic dance given by Mr. and Mrs. T. Madien at the Windsor Hotel, Lundbreck, recently, \$20 was raised for the Patriotic Fund.
